

WORKSHOP

INTRODUCTION TO ASSISTIVE TECHNOLOGY

This workshop will provide participants with an understanding of the types of assistive technology that a student with visual impairment could use for their learning. The trainer will introduce specific technologies during the workshop. Participants will get hands-on experience in using some of the devices.

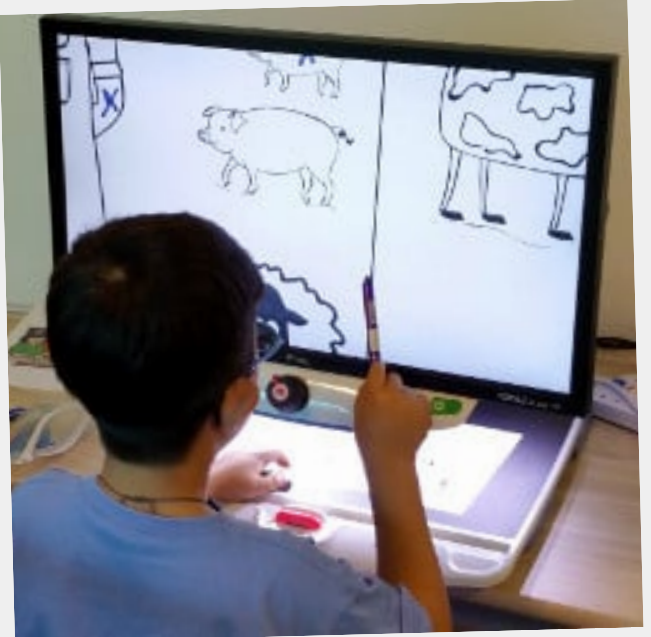

PROGRAMME OVERVIEW

ASSISTIVE TECHNOLOGY LEVEL 1

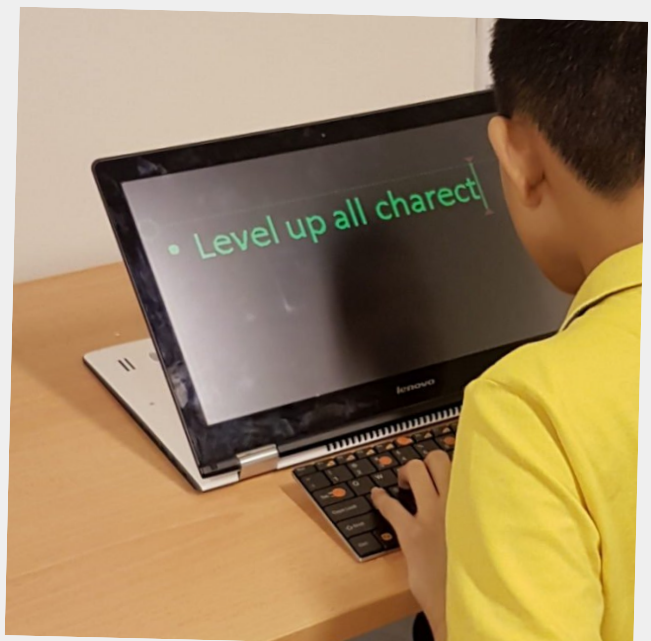

Learn about the various types of AT devices and their uses

1

2

Compare the uses of low technology vs high technology

Use the essential functions of specific AT devices

3
